Last Month's Meeting

Sis Sewell, with over 25 years of experience in Numerology, shared a simple working version with us. Using our birth names and dates of birth, we were shown a step by step method of how to figure our **Life Purpose** (sum of the birth date), **Expression**, (sum of numerical value of full name), **Soul-Urge** (the vowels) and **Secret Self** (the consonants). One of her clients checks in to learn which date is a good one to follow-up on. Sis recommended the book *Behind Numerology: Complete Details on the Hidden Meaning of Letters and Numbers* by **Shirley Blackwell Lawrence**. You may also research sites like www.astrology-numerology.com/numerology.html. It gives a good description of what the numbers mean.

If you would like to consult with **Sis** further, see her web site which is in progress:
